FSC - The Forest Stewardship Council. © 1996 Forest Stewardship Council A.C.

Well-managed forests - Certified and other controlled sources that exclude illegally harvested timber. FSC certification is the unique guarantee of the highest social and environmental criteria for forest management supported by non-governmental organisations such as WWF and Greenpeace. All of our brands have been FSC certified since June 2008.

Post Consumer and De-inked Recycled Paper Waste - All our recycled papers are premium and post-consumer waste recycled: Printed paper is collected from offices, printing companies and local authorities. The ink is cleaned from the fibres, which are then transformed in new paper sheets. The process has been optimized in our Greenfield mill to achieve the ultimate quality.

Carbon Neutral - Conqueror is now Carbon Neutral[®] in the UK, Ireland, Iceland, Germany, Belgium, the Netherlands, Luxembourg, Sweden, Norway, Denmark, Switzerland, Austria and Finland.

Carbon emission in our atmosphere is largely responsible for global warming. All our mills' emissions have been driven below the EU legal carbon limit.

ISO 14001

ISO 14001, the international environmental management standard, certifies that companies are committed to reducing the impact of their production on the environment, establishing an action plan to improve their environmental credentials.

All Arjowiggins mills are ISO 14001.
